

Pronunciation Guide for *Sworn Enemy*, by A.L. Sowards

First, a disclaimer (again): I am not a linguist. My ears do not distinguish sounds any better than the average person, so these may not be precise, but they will be close enough to give you a better idea of how to say the words listed. If you see an error, please let me know and I will do my best to fix it promptly. I will be grateful for your help, because I have to do this every time I have an audio book made. My narrators will thank you as well.

Key:

A=ape	o=office or saunter or father	th=thin
